Notice on Price Revision

To Distributors,

We would like to express our sincere gratitude for your continued support.

We have avoided increasing product prices to have made every effort to improve productivity, rationalization, reduction of various expenses, etc., in order to maintain the conventional price for as long as possible. But we can no longer prolong the price level we have sustained at the last years since we must accept the recent drastic increase in all costs such as materials, processing and transportation etc. from social responsibility as a company.

Therefore we decided to increase product prices because we judged stable supply and maintenance of quality cannot be maintained only by corporate efforts, we are afraid that there is no alternative that allows us to maintain the same quality of products and services under the circumstances.

We have stated the target models and the price revision rate and the effective date below for your review.

■ Target Models and Price Revision rate, applied against the conventional purchase price.

Series	Models	Price Revision rate
TCG	ALL	10% up
PSR / PSL	ALL	10% up
Ball Reducer	ALL	10% up
Index	ALL	10% up

■ Price Revision Date

Effect on orders received from March 1st 2022

We wish to thank you for your valued business, and trust that you will understand the necessity for this price revision.

If you have any questions and want to know more details, please contact from the contact form on the website, or email at "r1mizuno@kamo.co.jp".

Thank you for your understanding.

Sincerely Yours,

Sales Dept.
